1. Executive Summary

ShiftCare is a healthcare shift fulfillment platform that connects verified healthcare professionals (RNs, LPNs, CNAs, HHAs) with home health agencies and families who need care coverage. The platform solves a specific, urgent problem: **filling open healthcare shifts in hours, not days.**

The U.S. healthcare staffing industry is a **$52 billion market** growing at 7% annually, with an estimated **$12 billion lost annually** to unfilled shifts, overtime costs, and agency markups. In Florida alone, the home health aide workforce gap exceeds 30,000 workers, with demand accelerating as the 65+ population grows 3.5% per year.

ShiftCare generates revenue through three channels:

1. **Employer subscriptions** ($49-$149/month)
2. **Worker service fees** (10% per shift)
3. **Employer per-shift surcharges** (15% for non-subscribers)

The platform launched in beta in Florida (April 2026) with plans to expand to Georgia, Texas, and California within 12 months.

---

2. Market Opportunity

Industry Size

Metric	Value	Source
U.S. healthcare staffing market	$52.1B (2025)	Staffing Industry Analysts
Projected CAGR	7.2% (2025-2030)	Grand View Research
U.S. home health care market	$142.9B (2025)	Fortune Business Insights
Florida home health market	~$8.2B	FL AHCA estimates

Unfilled healthcare shifts (annual cost)	~$12B nationally	NSI Nursing Solutions
Average cost of a single unfilled shift	$3,400 (including overtime, agency fees)	Becker's Hospital Review

The Problem

1. **For Agencies:** Filling a shift takes 2-5 days on average. During that time, patient care gaps, overtime costs, and agency markup fees accumulate. A single unfilled CNA shift costs an agency $400-800 in lost revenue and overtime.
2. **For Workers:** Healthcare professionals want flexible, well-paying shifts but are locked into rigid agency schedules. Per diem workers often learn about available shifts through phone trees, text chains, or bulletin boards — then discover the shift was filled hours ago.
3. **For Families:** Families seeking home care face a fragmented market with opaque pricing, inconsistent quality, and no way to verify caregiver credentials independently.

Florida-Specific Opportunity

Florida is the ideal launch market:

- **#1 in U.S. for 65+ population** (22.3%, 5.1M residents)
- **#2 in home health agencies** (3,400+ licensed agencies)
- **Chronic CNA/HHA shortage** — 30,000+ unfilled positions
- **High per-diem demand** — tourism and seasonal residents create variable staffing needs
- **Regulatory tailwinds** — AHCA pushing for technology adoption in care coordination

Target Cities (Launch): Tampa, Orlando, Miami, Jacksonville, St. Petersburg, Fort Lauderdale, Clearwater, Gainesville

Serviceable Addressable Market (SAM): $240M (Florida home health shift staffing) **Serviceable Obtainable Market (SOM):** $2.4M in Year 1 (1% capture)

---

3. Product Overview

Core Platform Features

For Workers (Supply Side):

- Browse and accept shifts with one tap
- Same-day pay option (paid within hours of completion)
- Multi-metric rating system (Punctuality, Professionalism, Skill/Competence)
- Credential verification with provisional access
- Map-based shift discovery with distance filtering
- Personalized shift recommendations ("Top Picks for You")
- Schedule management with per-day availability windows
- Earnings dashboard with charts and CSV export

For Employers (Demand Side):

- Post shifts with role, time, location, pay rate
- Same-day pay toggle per shift (attracts more workers)
- Preferred worker invite system (4-hour exclusive window)
- Bulk shift operations and templates
- Worker search with rating/reliability/role filters
- Real-time shift status tracking with clock-in/out verification

- Subscription plans with usage-based limits

Platform Safety:

- 3-strike cancellation/no-show system (affects both workers and employers)
- Geofenced clock-in/out verification
- Automated credential expiry tracking with 60/30/14/7-day alerts
- Transaction-safe shift acceptance (prevents double-booking)
- $15 late cancellation fee for employers

Technology:

- Next.js 15 (App Router), TypeScript, PostgreSQL, Prisma ORM
- Stripe Connect for payments, Web Push notifications
- Deployed on Vercel with Neon PostgreSQL
- PWA-capable (installable on mobile devices)

---

4. Revenue Model

ShiftCare has three primary revenue streams and multiple planned future streams.

4.1 Primary Revenue Streams

Stream 1: Employer Subscriptions

Plan	Monthly	Annual (20% off)	Limits
Free	$0	$0	3 shifts/mo, 2 worker unlocks
Starter	$49	$39/mo ($468/yr)	25 shifts/mo, 15 unlocks
Professional	$149	$119/mo ($1,428/yr)	Unlimited

Conversion assumption: 60% Free → 25% Starter → 15% Professional (at scale)

Stream 2: Worker Service Fee

A **10% service fee** is deducted from every worker payout.

Example: $30/hr shift × 8 hours = $240 gross → $24 platform fee → $216 to worker

This fee is transparent — workers see the exact deduction before accepting any shift.

Stream 3: Employer Per-Shift Surcharge

Employers without a subscription pay a **15% surcharge** on each shift.

Example: $240 shift value × 15% = $36 surcharge → employer pays $276 total

This creates a natural upgrade path: at 4+ shifts/month, the Starter plan ($49) is cheaper than per-shift fees.

4.2 Revenue Per Shift

Scenario	Worker Fee (10%)	Employer Fee	Total Platform Revenue
Subscribed employer, $200 shift	$20	$0 (covered by subscription)	$20
Non-subscribed employer, $200 shift	$20	$30 (15% surcharge)	$50

4.3 Unit Economics

Metric	Value
Average shift value	$200 (8hr × $25/hr)
Revenue per shift (subscribed)	$20 (10% worker fee)
Revenue per shift (non-subscribed)	$50 (10% + 15%)
Blended revenue per shift	$30 (assuming 60% subscribed)
Average shifts per employer per month	12
Monthly revenue per active employer (sub + fees)	$49 (sub) + $240 (worker fees from 12 shifts) = $289
Customer acquisition cost (estimated)	$150
Lifetime value (24-month avg retention)	$6,936
LTV:CAC ratio	46:1

---

5. Financial Projections

Year 1 (April 2026 – March 2027) — Florida Beta + Growth

Quarter	Employers	Workers	Shifts/Month	MRR	Revenue
Q1 (Apr-Jun)	15	50	120	$2,850	$8,550
Q2 (Jul-Sep)	45	150	450	$10,500	$31,500
Q3 (Oct-Dec)	100	350	1,200	$28,000	$84,000
Q4 (Jan-Mar)	180	600	2,400	$52,000	$156,000
Year 1 Total					**$280,050**

MRR Breakdown (Q4):

- Subscriptions: 30 Starter ($49) + 15 Professional ($149) = $3,705
- Worker fees: 2,400 shifts × $200 × 10% = $48,000
- Employer surcharges: 600 shifts (non-sub) × $200 × 15% = $18,000
- Total: ~$52,000/mo (run rate of $624K ARR)

Year 2 (April 2027 – March 2028) — Multi-State Expansion

Quarter	Employers	Workers	Shifts/Month	MRR	Revenue
Q1	300	1,000	4,500	$95,000	$285,000
Q2	500	1,800	8,000	$170,000	$510,000
Q3	750	2,800	13,000	$280,000	$840,000
Q4	1,000	4,000	20,000	$430,000	$1,290,000

Year 2 Total					**$2,925,000**

Year 3 (April 2028 – March 2029) — National Scale

Metric	Projection
Active employers	3,000+
Active workers	12,000+
Shifts per month	60,000+
Annual revenue	$10M+
Gross margin	75%+

5-Year Revenue Summary

Year	Revenue	ARR (end of year)
Year 1	$280K	$624K
Year 2	$2.9M	$5.2M
Year 3	$10M+	$14M+
Year 4	$22M+	$28M+
Year 5	$40M+	$50M+

---

6. Valuation

Pre-Revenue Valuation: $1.2 Million

This valuation is justified by:

6.1 Market-Based Valuation

Comparable	Stage at Valuation	Valuation	Revenue Multiple
Clipboard Health (2017 seed)	Pre-revenue MVP	$3M	Pre-revenue
CareRev (2018 seed)	Early revenue	$8M	20x ARR
Nursa (2019 seed)	Early revenue	$5M	15x ARR
ShiftKey (2018 seed)	Pre-revenue	$4M	Pre-revenue
IntelyCare (2019 Series A)	$2M ARR	$45M	22x ARR

ShiftCare's $1.2M valuation is **conservative** relative to comparable healthcare staffing platforms at similar stages. The average seed valuation in this space was $3-5M.

6.2 Asset-Based Valuation

Asset	Estimated Value

Complete production codebase (174+ files, 25,000+ lines)	$400,000
Database architecture (20+ models, relationships, indexes)	$80,000
Payment infrastructure (Stripe Connect, escrow, subscriptions)	$120,000
Credential verification system	$60,000
Matching algorithm + recommendation engine	$80,000
SEO foundation (5 articles, sitemap, OG images)	$30,000
Brand, domain, design system	$50,000
Florida market intelligence + compliance research	$40,000
Total IP Value	**$860,000**

6.3 Revenue-Based Forward Valuation

Using a 10x forward revenue multiple on projected Year 1 ARR:

- Projected ARR (end of Year 1): $624,000
- 10x multiple: **$6.2M**
- Discounted 80% for execution risk: **$1.24M**

6.4 Market Gap Valuation

The unfilled shift problem represents $12B annually in the U.S. Even capturing 0.01% of this waste reduction creates $1.2M in annual value — validating the valuation floor.

Conclusion: $1.2M is a defensible, conservative pre-revenue valuation supported by market comparables, IP asset value, and forward revenue projections.

---

7. Founding Team

Ralph Pierre — CEO & Product Lead

Leads product strategy, market positioning, and business operations. Responsible for ShiftCare's vision as a shift fulfillment platform (not a job board, not a generic marketplace). Drives the focus on healthcare worker experience and employer conversion.

Rose Jean Baptiste — COO & Operations

Manages day-to-day operations, employer relationships, and market expansion planning. Responsible for the Florida launch strategy and geographic expansion roadmap. Background in healthcare operations and workforce management.

Noelle Pierre — CFO & Finance

Oversees financial planning, revenue modeling, and fundraising strategy. Manages subscription pricing, fee structures, and break-even analysis. Responsible for investor relations and financial reporting.

Elle Pierre — CMO & Growth

Leads user acquisition, brand positioning, and content strategy. Manages the worker and employer marketing funnels, SEO strategy, and social proof development. Responsible for the /for-workers and /for-families landing pages and conversion optimization.

Kalocode — Development Agency (Technology Partner)

Full-stack development partner responsible for building and maintaining the ShiftCare platform. Handles architecture decisions, feature development, security, and deployment. Kalocode brings expertise in Next.js, TypeScript, PostgreSQL, and healthcare technology compliance.

---

8. Go-To-Market Strategy

Phase 1: Florida Beta (April - June 2026)

- **Target:** 15 home health agencies in Tampa/Orlando
- **Approach:** Direct outreach to agency owners, emphasizing "fill shifts in 30 minutes"
- **Worker acquisition:** Facebook/Instagram ads targeting CNA/HHA certification groups
- **Pricing:** Free tier + Starter plan
- **KPI:** 120 shifts filled/month, 50 active workers

Phase 2: Florida Growth (July - December 2026)

- **Target:** 100 agencies across all Florida metro areas
- **Approach:** Referral program (agencies refer agencies), content marketing (blog articles targeting "CNA jobs Tampa")
- **Worker acquisition:** Same-day pay as primary differentiator in ads
- **Pricing:** Full tier rollout including Professional
- **KPI:** 1,200 shifts/month, 350 workers, $28K MRR

Phase 3: Multi-State Expansion (January 2027+)

- **Target:** Georgia, Texas, California
- **Approach:** Replicate Florida playbook per state, hire local market managers
- **KPI:** 4,500 shifts/month, 1,000 workers, $95K MRR

Customer Acquisition Channels

Channel	Target	Expected CAC
Direct agency outreach	Agencies	$200
Google Ads (employer keywords)	Agencies	$150
Facebook/Instagram (worker keywords)	Workers	$15-25
Content/SEO (blog articles)	Both	$5-10 (organic)
Referral program	Both	$50
Partnerships (nursing schools)	Workers	$10

---

9. Future Revenue Streams

9.1 Planned (Year 2-3)

Premium Shift Placement ($5-15/shift) Employers can boost their shift listings to appear first in worker feeds. Similar to Uber Eats restaurant promotions. Estimated adoption: 20% of shifts at $10 average = $2/shift blended revenue lift.

Background Check Fees ($30-50/check) Integrate with Checkr or Sterling for automated background checks. Pass the cost through with a markup. At 500 workers/month: $15,000-25,000/month.

Training & Certification Marketplace Partner with online CEU providers (Relias, NetCE) and take a referral fee for workers who complete certifications through ShiftCare. $10-30 per enrollment.

Payroll Integration Fee ($99-299/month) Offer agencies a payroll export/integration module that syncs completed shifts with their payroll system (ADP, Gusto, Paychex). Subscription add-on.

9.2 Future (Year 3-5)

In-App Advertising Healthcare supply companies (scrubs, medical equipment, continuing education) pay to advertise to our verified healthcare worker audience. CPM model targeting 12,000+ workers.

Estimated revenue at scale: $50K-200K/year.

Data & Analytics Premium Sell anonymized workforce analytics to healthcare systems: shift fill rates by region, wage trends, seasonal demand patterns. SaaS pricing for hospital systems.

Insurance & Benefits Marketplace Partner with insurance providers to offer per-diem workers access to health insurance, liability coverage, and retirement plans. Revenue share on premiums.

White-Label Platform License the ShiftCare platform to large healthcare systems as their internal staffing solution. Enterprise pricing: $5,000-25,000/month.

Revenue Stream Maturity Timeline

Stream	Year 1	Year 2	Year 3	Year 5
Subscriptions	$44K	$450K	$1.8M	$6M
Worker fees (10%)	$192K	$2M	$7.2M	$24M
Employer surcharges (15%)	$44K	$475K	$1M	$2M
Premium placement	—	$100K	$500K	$2M
Background checks	—	$150K	$600K	$1.5M
Training referrals	—	$50K	$200K	$500K
Payroll integration	—	—	$300K	$1M
Advertising	—	—	$100K	$500K
Data/analytics	—	—	$200K	$1M
White-label	—	—	—	$2M
Total	**$280K**	**$3.2M**	**$11.9M**	**$40.5M**

---

10. Cost Analysis & Development Value

See companion document: COST-ANALYSIS.md for detailed breakdown.

Summary

Development Approach	Estimated Cost	Timeline
Professional agency (U.S.)	$350,000 - $600,000	8-14 months

Mid-tier agency (international)	$150,000 - $300,000	6-10 months
Fiverr / Upwork freelancer	$50,000 - $150,000	6-18 months (high risk)
Solo developer	$80,000 - $200,000	10-18 months
ShiftCare (Kalocode)	**IP valued at $860K**	**Built and deployed**

The platform as built represents approximately **$400,000-600,000** in equivalent professional development cost, delivered at a fraction of that through Kalocode's efficiency and the founders' product vision.

---

11. Competitive Landscape

Feature	ShiftCare	Clipboard Health	CareRev	IntelyCare	ShiftMed
Same-day pay	Yes (per-shift toggle)	Yes	Yes	Yes	No
Worker always free	Yes	Yes	Yes	No (W-2)	No (W-2)
Family/private care	Yes	No	No	No	No
Shift recommendations	Yes (8-signal scoring)	Basic	Advanced	Advanced	Basic
Multi-metric ratings	Yes (7 sub-metrics)	Basic	Basic	Basic	Basic
Cancellation policy	3-strike + decay	2-strike	Varies	Varies	Varies
Credential expiry alerts	Automated (60/30/14/7/0 days)	Manual	Automated	Automated	Manual
Pricing transparency	Full breakdown before accept	Partial	Full	Partial	Partial
Geographic focus	Florida (expanding)	National	National	Northeast	Southeast

ShiftCare's Differentiators:

1. **Three-persona platform** — agencies, families, AND workers (competitors ignore families)
2. **Same-day pay as employer toggle** — not a platform decision, employers control it per shift
3. **Transparent fee structure** — workers see exact take-home before accepting
4. **Credential expiry automation** — proactive alerts, not reactive verification
5. **3-strike system with decay** — fair, graduated consequences that reward good behavior

---

12. Risk Analysis

Risk	Likelihood	Impact	Mitigation
Low initial employer adoption	Medium	High	Direct agency outreach, free tier, same-day pay differentiator
Worker supply shortage	Medium	High	Targeted social ads, nursing school partnerships, referral bonuses

Regulatory compliance	Low	High	HIPAA-ready architecture, credential verification, licensed in FL
Competitor response	Medium	Medium	Speed of iteration, family care niche, Florida market focus
Payment processing issues	Low	Medium	Stripe Connect handles compliance, escrow protects both parties
Credential fraud	Low	High	Admin review queue, automated expiry, background check integration

---

13. Milestones & Timeline

Date	Milestone
April 2026	Beta launch in Tampa + Orlando
May 2026	50 active workers, 15 agencies
June 2026	Stripe live, first revenue
July 2026	Expand to Miami + Jacksonville
September 2026	350 workers, 100 agencies, $28K MRR
December 2026	All Florida metros, mobile app (React Native)
January 2027	Georgia expansion
March 2027	$52K MRR, 600 workers, 180 agencies
June 2027	Texas expansion
September 2027	California expansion
December 2027	$430K MRR, 4,000 workers, 1,000 agencies
2028	Series A fundraise ($5-10M) at $50M+ valuation

Appendix: Key Platform Metrics (Current)

Metric	Value
Codebase	174+ source files, 25,000+ lines TypeScript
Database models	20+ (User, Shift, Assignment, Rating, Strike, etc.)
API routes	17 (auth, clock-in/out, push, cron, admin, webhooks)
Cron jobs	4 (no-shows, strike decay, credential expiry, auto-confirm)
Public pages	13 (homepage, pricing, for-workers, for-families, etc.)
SEO articles	5 (statically generated with per-article metadata)
Authentication	Email/password + Google OAuth

Payment	Stripe Connect (escrow model)
Notification channels	In-app, email (Resend), SMS (Twilio), web push (VAPID)

This business plan was prepared by the founding team of ShiftCare in collaboration with Kalocode. All financial projections are estimates based on market research and comparable company data. Actual results may vary.
