Break-Even Calculator

If you post more than 4 shifts/month at an average $200/shift, the Starter plan saves money vs. per-shift fees:

- 4 shifts x $200 x 15% = $120/month in per-shift fees
- Starter plan = $49/month

8. FAQ

How does worker credentialing work? Workers submit their license and certifications during signup. We verify credentials within 7-14 business days, granting provisional shift access immediately.

What happens if a worker no-shows? Our 3-strike system protects employers. After 1 no-show, the worker sees 25% fewer shifts. After 3, their account is suspended. We automatically detect no-shows 30 minutes after shift start and reopen the shift.

How quickly can I fill a shift? Most shifts are filled within 30 minutes. Urgent shifts are prioritized in our matching algorithm and sent as push notifications to qualified workers.

Is there a contract or commitment? No contracts, no commitments. Cancel your subscription anytime. The free plan never expires.

How do workers get paid? Workers choose Same Day Pay (paid within hours) or Standard Pay (released 4 hours after employer confirms). All fees are transparent — workers see exact take-home before accepting.

Is ShiftCare available outside of Florida? We're currently serving South Florida (Fort Lauderdale, Miami, West Palm Beach). Expanding to Tampa, Orlando, Jacksonville in Q4 2026 and Georgia, Texas, California in 2027.
